The Honorable State Senator _____
State Capitol Building
Des Moines, IA 50319

Dear Senator _____:

February 2007

PLEASE SUPPORT keeping federal deductibility as part of Iowa's income tax code and OPPOSE any attempt to REPEAL or REDUCE it.

1. **A tax on a tax is wrong.** Federal deductibility is simple fairness. The state has no right to tax the money the IRS takes from us to pay federal income taxes.
2. **Iowans support federal deductibility.** A new poll shows **77%** of Iowans want to keep our right to deduct **all** our federal income tax payments.
3. **Trading federal deductibility for lower tax rates is a shell game.** We know that trade will raise our taxes. Once a deduction is taken away, it is gone forever. But tax rates NEVER stay the same. Any lower rate will be raised again.
4. **Federal deductibility protects low-and-middle-income Iowans.** They benefit the most because this is their biggest or second-biggest deduction.
