The Honorable State Senator _____
State Capitol Building
Des Moines, IA 50319

Dear Senator _____:

March 2007

PLEASE support keeping my right to vote on the local option sales tax for schools (SILO), and vote NO on HF 854.

1. **Voter approval is essential for accountability** – and is the only way to make sure these dollars are used for school buildings or property tax relief.
2. **History proves we cannot protect these funds.** The pressure to divert this money to other uses would be tremendous, and impossible to stop.
3. **Passage of HF 854 would mean future property tax increases.** When the dollars to local school boards are reduced, new school buildings will be financed by general obligation bonds that are repaid with **higher** property taxes.
4. **HF 854 is a \$100 million tax increase,** beyond what SILO collects. This bill would raise both sales tax and use tax, but SILO does not apply to the use tax.
